

# Essity News for Vet Professionals

## Introducing our new team member...

Francesca has worked in a veterinary clinical setting for 16 years and qualified as a Registered Veterinary Nurse in 2016, she has worked in a referral hospital where her interest in diagnostic imaging, wound care and education became her key focus before moving to a senior nurse role in a first opinion practice. Fran joined Essity in March and is thrilled to be supporting veterinary practices with their wound management needs.

The **Essity veterinary team** are excited to be able to conduct wound care education and product training with you via online meetings.

Training topics covered include;

- General wound care products
- Debridement
- Exudate management
- Post-operative wound protection

We can tailor the training to suit your needs

Book your training session today and get a bespoke product sample pack

# Essity Product Overview

## Wound Care products by Essity

**Cutimed®** is the Essity brand of products designed to facilitate the wound healing process.

# Cutimed®

## Exudate Management - Cutimed® Siltec®

Our range of foam dressings (with a silicone wound contact layer) for exceptional performance.

## Debridement - Cutimed® Debriclean

This pad supports mechanical debridement which leads to more effective wound healing.

## Infection Management – Cutimed® Sorbact®

Provides safe and effective removal of bacteria to reduce the bioburden in wounds and facilitate the healing process.
